Hi everyone,

I accompanied Keith from Highgate to Dr Robertson's office today for his Medical Evaluation and follow up. The appointment went well. Keith's left hand is still swollen and discolored from his fall from bed. Dr Robertson prescribed some antibiotic ointment and some new bandages in addition to an oral antibiotic. The referral was sent to Water's Edge Pain Clinic for a pain injection for his hip (Dr Robertson isn't sure how effective the injection will be). She also wrote a script for the pneumonia shot.

All orders and scripts were given to Highgate staff. The cognitive evaluation didn't go very good as Keith was having a hard time even answering the first two questions. Dr Robertson's office will fax over the documents and evaluation results when they are complete.
